BBQ COACH

#1 DIY Outdoor Kitchen System in USA

Since 1998 We have helped thousands of homeowners build Amazing Outdoor Kitchens that last a lifetime.

18 GAUGE                  G60 Galvanization                  CRAFTED WITH PRIDE                  ASTM C955
HEAVY DUTY                 15 Year Warranty                  IN THE USA                        STRUCTURAL

800-227-9508
Since 1998, BBQ Coach has been building America’s finest DIY Outdoor Kitchen kits for people who demand the highest quality and professional results. Our passion for manufacturing professional grade Outdoor Kitchen panels will be felt in the pride of ownership that you’ll enjoy for a lifetime. BBQ Coach PRO PANELS are constructed of the finest quality, made in America, 18 Gauge Heavy Duty Structural Exterior Galvanized Steel. Our panels easily support heavy outdoor kitchen appliances, granite and concrete counter tops, stucco and stone veneer siding. Our panels are pre fabricated and squared with industrial equipment for Professional Grade results. **BBQ Coach is #1.**
Our $4000 Build Pro Welding Table Used to Square BBQ Coach Pro Panels

HGTV shows like Amish Renogades use BBQ Coach Pro Panels to build their outdoor kitchens.

The BBQ Coach DIY System has been featured in national magazines such as Barbeque America

Willie the BBQ Coach is a Master Framer and has been building Outdoor Kitchens Full Time since 1998.

Our $16,000 Stud Chopper Machine makes identical cuts so that our Pro Panels all line up the same size. This is a must have machine to make real Pro Panel Modules.

OVER 5000 FAMILIES HAVE USED THE BBQ COACH SYSTEM WITH AMAZING RESULTS!
BBQ COACH Pro Panels are Pre-Fabricated and Square. Sold in pairs of 2 per module. Pro Panels are Manufactured for Super Strength and used for the End Frames.

18 Gauge Length Wall Beams with Pre-Cut openings allow you to Quickly Slide them into place and easily fasten them with self drilling screws. With this system we offer modules up to 8 Ft Long. Any Homeowner can screw these together. Our System makes it so Easy!
**NEW**

8 Ft Long Module

This is our revolutionary new module that gets a whopping 8 ft of your outdoor kitchen island done in **one punch!**

With our Pro Panel End Frames and 8 ft long Patent Pending Slip Over Beams We can now ship an 8 Ft Module Nationwide with UPS. This is Amazing! You can now get the big outdoor kitchens done faster than ever before. Even Better—It can easily be trimmed on the job site to a custom length for perfect results!

Cutouts, Cement Board, Appliances, Screws, Etc are all sold separate.
Our Clients Love Our Product So Much they send us pictures!
Everyone comments we have a Great System & Excellent Product!
BBQ COACH Modules Include the Heavy Duty 18 GA Pro Panels Plus Our Valuable Step by Step Videos Teaching You Our Steel Framing System.

You will pick up the 1/2” thick cement board locally. A 3ft x 5ft sheet sells for around $10. at Lowes or Home Depot.
Step 1. Measure Your Space & Select a Straight, L or U Design

L and U Island Design are the most popular for outdoor kitchens.

Select the Longest Modules Possible to fill up your space fast. 28” Depth is standard and the best price.

Straight Modules Available in Lengths:
8ft, 7ft, 6ft, 5ft, 4ft, 3ft. 30”, 2ft, 1 Ft.
Depth 28” Standard
(32” & 24” Depth Available)

Select Modules to fit your design and space.
Modules can easily be shortened by trimming down the 4 length beams for custom lengths.

BBQ COACH TIP For PRO’S

TIP: Use 8 ft modules and trim them down on the job site for perfect results! No more guessing of what length you need. This is the way the Pro’s Do It!

90 Degree Mod is optional. It’s benefit is that it gives you a full 8 ft for appliances on each wing.
A. 5 module for a 30” grill + a side burner
B. 4 ft module
C. 8 ft module + back splash + over hang

2 ea 4ft back splash kits
2 ea 4ft of 12” over hang kits
4 ea hidden bar supports

WOW!!!
Only 3 Modules
for a big kitchen!
Universal Appliance Cutout Kits are needed for each component you want to install into your outdoor kitchen island. These cutout kits are just extra track and studs needed to frame in the support to house your appliances. At BBQ Coach we label each part and offer step by step instructions and videos to help you install these kits. The kits are made of 20 Gauge 33 mil exterior steel that is still strong but allows you to cut them with Weiss snipps and avoid power tools. Our kits make it easy!
Make a Shopping List of Appliances—with size of each unit. Add 4” in from the ends and 4” between each unit to guarantee they fit.

Example

\[
\begin{align*}
4” &+ 24” \text{ Fridge} + 4” + 36” \text{ Grill} + 4” + 14” \text{ Drawers} + 4” = 90” \\
\end{align*}
\]

With this example we have calculated a minimum frame of 90” is needed and will use an 8ft module.

**Buyer Is Responsible to make sure their appliances will fit.** Make sure not to over crowd to many appliances into one module. **You must allow for the steel framing needed on both sides of each appliance and this is why 4” is the minimum spacing on each side.**

Note: It is more desirable to have 8—12” space between each appliance to avoid the look of over crowding. Doors and drawers have a wide trim around the edges that look better if spaced properly.

**TIP:** Don’t Overcrowd Appliances
Plan on 8–12” between components. Allow enough counter top space for serving platters. 18—24” is ideal.

**YES**—You can position your appliance cutouts where ever you want within the module frame and in any order.

Actual Grills and components like doors and drawers are not included with Module Kits.
BBQ Coach Videos and Instructions Give Homeowners the Training & Materials needed to Build an Outdoor Kitchen With Professional Results. This Is The Real System Used By the Pro’s. We Give You Free Training Worth Thousands of Dollars just for using our Product!

**Square Package**
- Used to square the counter top. Order 1 per module
- Sold separate.

**Connector Plates**
- 2 per union of modules.
- 4 per section of back splash
- Sold separate.

**Composite Shims**
- Order 1 pack to help install cement board.
- Sold separate.

**Deck Board Strip**
- 1 under each end frame + 1 every 2 ft
- Sold separate

**Hidden Bar Supports to support over hang.**
- Tile counters 1 approx. every 4 ft.
- Granite Slab 1 approx. every 2 ft
- Concrete Slab 1 ever 1 ft
- Sold separate

**BBQ Coach Cement Board Stucco.**
- This is the Amazing stucco formulated for cement board that requires no metal lath or base coat. All weather approved. Excellent for DIY’ers. More information on our website.
Pizza Ovens

Chicago Brick Pizza Oven Finished and ready to sit on the counter top

Chicago Brick Pizza Oven CBO500 or 750 for a DIY Pizza Ovens.

When I was building my L Island Outdoor Kitchen I used the CBO 500. It was small and should have got the 750. But in looking back at it, I was sorry I just did not buy the Finished One and just place it on top of a BBQ Coach Diagonal Sink Module. It would have been a lot less time and effort. Outdoor kitchens are a big project and do you really want to add the extra time and money to build a custom pizza oven. Next time I will get the finished one!

Framing a wider component under a more narrow counter top appliances

When you want to frame a wider component below a more narrow counter top appliance you will need to add 2 extra studs and 1 extra 4ft track in addition to the cutout kits to make it work. To the left the black lines show the full studs hold the drawers but the side burner needs additional studs and track shown in red.

BBQ Coach TIP: Always frame the bottom component first.
Decking Boards
Decking board strips are used under the frame to protect the frame from rust. They also add ventilation and allow water to drain under the island. They are not seen once you add cement board.

Counter Top Supports
are used to fill empty void in the counter top of 28” or more. They can also be used to support cement board around posts. They can be used to create shelves. They are used for cement board seams in the counter top.

Connector Plates
2 connector plates are needed per union of 2 modules. 4 connector plates are needed per section of backsplash.

Square Package
For each module you will need to order one square package. Although our Pro Panel end frames are already factory squared you still need to square the counter top. This is done easily with our innovative square pkg.

Self Tapping Screws—No Pre Drilling Needed.
BBQ Coach 18 Gauge steel is very thick and requires the use of special self drilling screws.

For this project you will need self tapping framing screws and cement board screws. You will also need base board screws to secure frame to the decking boards.

Needed Extra's
Screws, Connector Plates, Base Board Strips, Air Vents, Hidden Bar Supports, etc...

These are all things you will need to add to your order. If not sure how many it is best to email in your plan to bbqcoachdesign@gmail.com
To assemble your outdoor kitchen frame you will need to order needed extra’s. Framing screws, decking board screws, cement board screws, connector plates, composite shims, air vents, decking boards, counter top supports, hidden bar supports for overhangs. If not sure how many to buy it is best to send in your plan for a shopping list.

Add 1 Sq Pkg per Module
Corner Modules

Corner Modules are an optional upgrade to our straight modules.

**Rounded Corner Mod**
28” Depth Only
Perma Base Flex cement board that bends sold separate.

**Diagonal Sink/Egg Mod**
Very Popular Module!
Use for a sink, egg smoker or even a small pizza oven.
28” Depth Only
Rear sides 42 x 42

**90 Degree Corner Mod**
This Module helps to avoid design problems down the road. Many times people will use 2 modules and butt one up against the side of another to make an L island. The problem is they are losing usable space for appliances. The 90 degree module avoids this problem.

**45 Degree Mod**
28” Depth only.
If you need an angle other than 45 degree we offer a custom angle kit that you can easily make any angle you want between 2 modules.

When you butt a module against a module you lose 28” of usable space. This leaves little usable space on the return island for appliances. But if you use a 90 degree module then you will have the full 4 ft on both wings.

*Always Use a Corner Module if You have a lot of appliances.*
**Back Splash Panels**

2 1/2” x 41” high

20 gauge 33 mil galvanized steel

Creates a 6” high back splash when used with our standard height modules.

To keep prices low this is sold as a kit that requires assembly (not pro panels)

Use our 4ft sections for the Best Price and Cut 2 Fit

---

**12” Over Hang Kits**

2 1/2” x 12” depth

Requires hidden bar supports to reinforce for strength.

(sold separate)

Requires assembly.

Use our 4ft sections for the Best Price and cut 2 fit

---

**Split Bar Counter**

2 1/2” x 12” depth x 41” high

To create a split bar counter use our back splash kits plus our 12” over hang kits + hidden bar supports.

12” is the correct length for maximum strength.

When you add cement board and finishing materials it will become approx. 16-17” bar counter top. Requires assembly.

---

**NEW! 24” High Back Splash Kit now available**
**Custom Kits**

**G4000**  This kit adds a half moon over hang on the end of your island and connects into a split bar counter. Requires 2 hidden bar supports sold separately. 22” Depth

**3 Ft Drop Down Burner Module.**
Used for power burners.
Measures: 3ft L x 28” Depth x 35” high

**3 Ft Open Egg Module.**
Used for egg smokers.
Measures: 3ft L x 28” D x 35 H
NEW We also offer a cutout kit to fit in the 8 ft module to make the open egg shelf.

**Decagon Table Module**
Table top measures: 38 3/4” long x 49 1/4” wide
Sold as Bar Height 41” and can be connected to our split bar counter with a bar gap filler Sold separate.

**5 Ft Double Wall Grill Cart Kit.**
This kit creates an opening between 2 modules for your grill cart. You will cut to fit. Platform is optional and sold separate.

**Pizza Oven Module**
for CBO 500 & 700 made by Chicago Brick Pizza Oven.
**Egg Smoker Options**

**OPTION A.** For small and medium Eggs

Combine a straight module + egg cutout kit. You will position the platform inside the module at the best height to match your countertop. Note: Make sure the egg will sit high enough that the hinges will not hit counter.

**OPTION B.** Any Size Egg

The Diagonal Egg module is your best choice for a big egg smokers like the green egg xl. This is a very popular module. It fits a small 14 x 20 vertical door on the front to access your eggs soot opening. (door sold separate)

**OPTION C.** Any Size Egg

This is an excellent option that is very easy to assemble. This kit comes with a 12” drop down that you can make shorter if desired. We recommend you secure the egg from falling over with a slab counter top that wraps around it.
Module Dimensions: All listed module sizes are the measurement from the outside edge to outside edge. Decking Board under frame will add 1” to height

Interior Usable Space Is Length minus—4”
BBQ COACH Straight Modules
Assemble Fast & Easy Like IKEA Furniture.
HERE’S HOW

STEP 1. Slip the pre-cut length wall tracks over the top of the prefabricated end frames and secure with 6R Vice Clamps.

STEP 2. With the clamp in place use a hammer to knock the end of the length wall flush to the outside of the end frame. Once perfectly flush secure it with a BBQ Coach Self Tapping Screw.

STEP 3. Flip Over The Module and screw in the last 2 length wall tracks.

PRO PANEL END FRAMES are Factory Squared & Assembled

Install your studs on the front and back walls every 12”. If you will have an appliance cut-out leave the studs out on the front side until you are ready to install the cutout kit.

just one screw in each corner will hold your length wall tract very well.

WOW !!! That’s Easy
NEW 2016 Improvements:

We consulted a seasoned engineer who designs bridges and freeways. He assisted us to design pro panels that no longer require cross braces. Cross braces use up valuable space for appliances. Now are Pro Panels are square with no cross braces. This is a big improvement!
Do You Have a plan for your outdoor kitchen and want an expert to review your drawing and provide a shopping list of the Bbq Coach Pro Panel Frame Kits and needed extras?

We are Happy To Help You!

Email your top view drawing and list of appliances to: bbqcoachdesign@gmail.com

1 FREE Review Per Person. We will require you to create a free account on our website to receive your shopping list. This FREE service is by email. Due to the large volume of submissions we receive there is not enough time for phone calls. Thank You for your understanding.

Please make sure the plan you submit is the one you really want.

**APPLIANCE LIST**

- 36” GRILL
- 30” Double Doors Below
- Slide in Side Burner
- Triple drawers
- Large Sink
- Trash Drawer

Note: This is a shopping list for the plan you submit. Not a design service. If we see a problem we will tell you, however you are responsible for appliances to fit.
To Add a split bar counter on the end order:

Back splash wrap around one end + 12” over hang wrap around one end + 2 hidden bar supports
To make this rounded island the client used two Bbq Coach rounded corner modules. Then you can add a granite or concrete slab that overhangs the modules. In this picture the client decided to add a 12” level over hang kit for added appearance but really only required for a tile counter top that can not over hang on its own. You will also need 2 sheets of Perma Base Flex cement board.
BBQ Coach 18 Gauge Heavy Duty Steel supports heavy stone veneer and stucco siding as well as concrete and granite slab counter tops. Our Products are designed to last a lifetime.

TIP: Counter tops must over hang stone veneer siding to keep the water out which could cause the stone to fall off.
Connects to a Split Bar Counter

22”

The BBQ Coach G4000 kits creates a beautiful rounded overhang. It can be tied into a split bar counter or used on the end of an island for additional counter top space.

Client installed the G4000 to the end of a cooking height module and our double wall grill cart kit.
Parallel Islands are often overlooked as a design option. The big 3 (straight, L and U) are always the first consideration. But the Parallel Design can make a lot of sense if you entertain large groups and have the space for it.

The basic idea is one island for serving and the other for cooking.
BAR HEIGHT MODULE
41” Studs

Cooking Height Module 35” Studs

**BBQ COACH TIP**: Doors under the grill should be equal or less than the grill cutout in order to fit between the right and left grill studs.

Excellent Warranty Program unlike some import brands.
BBQ Coach 25% OFF Sales + No Sales Tax for Non-California Residents makes this Premium Brand Not Much more than the cheaply made imports.
Grills are commercial quality that are a pleasure to cook on.

Customer Comments

**Fire Magic An Excellent Product Built To Last!**

I am building my second Outdoor Kitchen for my Vacation Home in Florida. I built my first outdoor kitchen using an import brand Lion. It was ok but I decided for only a few dollars more I could get Fire Magic through the BBQ Coach 25% Off Sales.

As soon as I removed the items from the box I was immediately impressed with how much thicker the stainless steel is. Very High Quality. I recommend Fire Magic and Bbq Coach to all my friends.

Thanks Tony B.
Echelon sideburners are designed as companion side cookers for the Echelon Diamond Grills. Featuring a contoured face, back-lit control knobs, hot-surface ignition, and a power switch. All Echelon accessories plug into the Echelon Diamond Grill transformer for power.

MODEL: 32884-1  
CUTOUT: 19” w x 18¾” d x 12” h
With the Echelon Double Searing Station, prepare restaurant-quality steaks. When meats are flash-cooked up to 1200°F using infrared technology, juices are locked in and meats are tender and full of flavor. With 32,000 BTUs.

**ECHELON SEARING STATION**
MODEL: 32874-1  
CUTOUT: 14” w x 22¾” d x 12” h
Sear favorites such as ahi tuna and marbled filet mignon to perfection. 24,000 BTUs and up to 1000°F of infrared heat. Perfect for an amazing seared steak.

**DOUBLE SEARING STATION**
MODEL: 3289-1 / 3288L-1*  
CUTOUT: 19” w x 18¾” d x 12” h
With the Double Searing Station steaks are flash-cooked at 1200°F, juices are locked in and meats are tender and full of flavor. With 32,000 BTUs of infrared heat, the double searing station is a welcome companion to your Fire Magic® grill.

**SEARING STATION**
MODEL: 3287-1 / 3287L-1*  
CUTOUT: 14” w x 22¾” d x 12” h
This single side burner flash cooks up to 24,000 BTUs and up to 1000°F of infrared heat locking in juices for tender meat and full flavor. Perfect for an amazing seared steak.

*New "L" models feature Hot Surface Ignition (120V power required)  
All Fire Magic® sideburners include stainless steel lid.
Echelon Power Burner
Model: 19-4B2N-0
Cutout: 19" w x 18 ¼" d x 12" h

The Echelon Power Burner is the largest, most powerful side cooker available and provides the high heat that’s perfect for wok cooking or frying a turkey! Offering a range of 3,000 to 60,000 BTU’s. Available with porcelain cast iron or stainless steel grids.

Echelon DBL Side Burner
Model: 32814
Cutout: 11 ½" w x 22 ¼" d x 12" h

Enjoy precise flame control on each burner to prepare side dishes and sauces for your meal. (Two [2] 15,000 BTU’s burners). Available with porcelain cast or stainless steel grids.

Echelon Side Burner
Model: 32794-1
Cutout: 11 ½" w x 14" d x 12" h

The Echelon Single Side Burner features a 15,000 BTU’s burner, precise flame control valve, and stainless steel cover. Available with porcelain cast grid.

Power Burner
Model: 19-5081N-0 / 19-5LB1N-0*
Cutout: 19" w x 18 ¼" d x 12" h

The Power Burner is the largest, most powerful side cooker available. It provides a range of BTU’s from 3,000 to 60,000. Available with porcelain cast iron or stainless steel grids.

Double Side Burner
Model: 3261 / 3261L-1*
Cutout: 11 ½" w x 22 ¼" d x 12" h

The Double side burner offers precise flame control on each burner to prepare side dishes and sauces for your meal. (Two [2] 15,000 BTU’s burners). Available with porcelain cast or stainless steel grids.

Single Side Burner
Model: 3279-1 / 3279L-1*
Cutout: 11 ½" w x 14" d x 12" h

Features of this single side burner include a 15,000 BTU’s burner, and precise flame control valve. Available with porcelain cast grid.

Side Burner Countertop
Model: 3260
Cutout: 8 ¼" w x 14 ¼" d

Drops into the top of island. Features include 15,000 BTU’s sealed burner, precise flame control valve, and stainless steel cover.

*New "L" models feature Hot Surface Ignition (120V power required)
All Fire Magic® sideburners include stainless steel lid.
ACCESSORIES
SIDE BURNERS, REFRIGERATION, & MORE

REFRIGERATOR
MODEL: 3590A
CUTOUT: 20" x 21 ¼" d x 34 ¾" h
4.2 cubic foot. Interior light and, security lock and key. Reversible door hinge. When used outdoors, it must be installed in an enclosure.

PREMIUM REFRIGERATOR
MODEL: 3590-DR or DL
CUTOUT: 20" x 21 ¼" d x 34 ¾" h
Custom-designed door is fabricated with a heavy-duty handle and radial corners for an exclusive look. Handy lock keeps contents safe. When used outdoors, it must be installed in an enclosure.

LARGE CAPACITY ICE MAKER
MODEL: 3593
CUTOUT: 16 ¼" w x 24 ¼" d x 34 ½" h
Produces 44 lbs of ice in a 24 h period and can store up to 25 lbs. UL listed for outdoor use and “Energy Star” rated. Continually producing ice on demand as ice is used. Suitable for outdoor and indoor applications.

REFRESHMENT CENTER
MODEL: 3596
CUTOUT: 25 ½" w x 23 ½" d x 12" h
Insulated walls, bottom drain, in-front sheking, attached bottle opener, dual sliding removable doors, included drain kit, and Echelon styled face.

DROP-IN REFRESHMENT CENTER
MODEL: 33596
CUTOUT: 23 ½" w x 25" d x 12 ½" h
Use like an ice cooler in your grill island to keep soda, beer or other beverages cold and frosty. Includes handy drain kit and removable insulated top panel.

BAR CADDY
MODEL: 1D-SO
CUTOUT: 14 ¼" w x 22 ¾" d x 12" h
Bar Caddy comes equipped with a towel bar, bottle opener, sliding storage drawer, two stainless steel bottle sleeves and an installation hanger. Available with the optional steam warming accessory.

BUILT-IN BEVERAGE CENTER
MODEL: 1D-SSA
CUTOUT: 36 ¼" w x 23 ½" d x 12 ¾" h
Features top storage shelf with rail, faucet with sink and drain, removable bamboo cutting board, storage drawer, wine glass holder, halogen lights, covered heavy-duty blender, insulated ice drawer, and 2 condiment holders. Also available in a portable unit and Diamond Series (1D-SSD).

SINK & FAUCET
MODEL: 3587 & 3588
CUTOUT: 14" w x 14" d x 11" h
Adds convenience and functionality to your outdoor kitchen. Purchase separately or together. Sink measures 15" x 15" x 6" and requires a 17" clearance underneath.

BLENDER W/HOOD
MODEL: 3284A
CUTOUT: 8 ¼" w x 14 ¼" d
Fire Magic® Blender is the perfect companion for any outdoor kitchen, bar caddy or beverage center. The attractive and sturdy stainless steel cover protects the 075-watt motor from the elements.

CUT & CLEAN COMBO
MODEL: 53815
CUTOUT: 16 ½" w x 15 ¾" d x 15" h
Allows you to slice and dice on a Fire Magic® bamboo cutting board, then sweep debris right into the Fire Magic® trash receptacle or basic trash can via a deep stainless steel trash chute. Chute measures 14 ¾".

TRASH CONTAINER
MODEL: 53825-T
CUTOUT: 12 ¾" w x 20 ¾" d x 24 ¾" h
Constructed of stainless steel with a hands-free foot lever, the door easily slides open to reveal a 10.5 gallon trash can. Fully enclosed.

PAPER TOWEL HOLDER
MODEL: 53812
CUTOUT: 12" w x 8" d x 9 ¾" h
Accepts and protects regular or jumbo rolls.

INSULATING LINER
MODEL: Various Models
CUTOUT: Various Sizes
Featuring reduced clearance and requiring no additional support panel beneath the grill. The Insulating Liner is constructed of 304 stainless steel, is pre-assembled and includes a hanger for easy installation.

VENT HOOD
MODELS: 36-VH-6, 42-VH-6, 48-VH-6, 60-VH-6
Dual 120v halogen lights. 1200 CFM variable speed blower. 30" extra deep design and anodized aluminum removable filters for easy cleaning.
WOK
MODEL: 3572
Hard-anodized stick-resistant lined interior surface measures 14” in diameter.

GRIDDLE
MODEL: 3512A or 3513A
Griddle available for the Fire Magic® double side burner as well as the Echelon and Aurora grills. Perfect for breakfast, grilled or vegetables or fajitas.

WARMING RACK EXTENDER
MODEL: 3682
DIMENSIONS: 14” w x 7” d
Add almost 100 square inches of indirect grilling (or warming) space to 22” deep Echelon and Aurora Grills with the new Warming Rack Extender. Simply hook on the rear edge of the existing warming rack.

GRILLING TRAY
MODEL: 3567
DIMENSIONS: 13 ¾” w x 14 ¾” d
Expand your cooking horizons with the Fire Magic Grilling Trays. The durable black porcelain finish, angled sides and easy access low profile front makes cooking smaller food on your Fire Magic grill a snap. Works with any Fire Magic grill.

ROTISSERIE BASKET
MODEL: 3618
A versatile, stainless steel basket for skewers, burgers, ribs or fish.

CHICKEN HOLDER
MODEL: 3617E
Enjoy a golden, succulent chicken the quick and easy way!

TURKEY HOLDER
MODEL: 3615E
This sturdy holder is also perfect for beef, pork and lamb roasts.

TURKEY FRYER KIT
MODEL: 3570
You’ll be amazed at how tender a deep-fried turkey can be. Kit includes pot, inner basket with sturdy handle and thermometer probe. Great as a crab or corn pot.

CHARCOAL BASKET
MODEL: 3562-1 (13” x 10”)
MODEL: 3562-2 (16” x 10”)
Cooking with wood chunks or charcoal is easier than ever. Basket sits on top of the burner, gas burners ignite the chunks or coals. Bottom tray catches ashes for easy clean-up.

GRILL COVERS
MODEL: Various “F” Styles
Custom fitted to Fire Magic® grills and accessories, these black covers are manufactured with a PVC exterior and Polyester “breathable” interior providing excellent protection to any Fire Magic product.

FOUR-PIECE TOOL SET
MODEL: 3575B
Packed in a handsome zippered nylon logo case, our new 5 piece tool set includes stainless steel tongs, meat fork, silicone-tipped basting brush, slotted flat spatula with serrated edges and built-in bottle opener and a two-sided grill brush.

GRILL BRUSH
MODEL: 3576-1
The brass bristles on Fire Magic®’s Grill Brush make clean up fast and easy. Includes one replacement brush head. Replacement brush heads also available.

GRILL LIGHT
MODEL: 3574
This halogen 10 watt bulb makes evening grilling easy. When using the light on a grill without backburner, a light bracket must be ordered. Aurora Light Bracket: 3600-43, Legacy Light Bracket: 3600-18 SP.

SAFETY TIMER
MODEL: 3090 (3 hr timer)
MODEL: 3092 (1 hr timer)
Fire Magic® 3 Hour, and 1 Hour Safety Timers offers additional safety and automatically shuts off gas flow at pre-set times. Easy to install. Great for apartment and condominium use.
DOORS & DRAWERS

FLUSH MOUNTED
MOUNTED DOORS AND DRAWERS (5 Series)

Featuring heavy-duty handles with cast stainless steel mounts, these doors and drawers are designed to close flush with the frame using a strong magnetic latch. Flush Mounted Doors and Drawers are filled with polyurethane foam for insulation and a solid feel. A continuous rain guard protects from water getting into your custom enclosure. Available in a variation of door and drawer configurations and sizes. With so many options there is a combination available to meet any outdoor kitchen storage need.

PREMIUM
DOORS AND DRAWERS (4 Series)

Stylized with rounded edges to match the contours of your Fire Magic® Grill, these doors and drawers feature heavy-duty handles with cast stainless steel mounts and are mounted outside the frame. A strong magnetic latch ensures secure closure and polyurethane foam filling gives a solid feel and insulation. A continuous rain guard protects from water getting into your custom enclosure. Available in a large variety of door and drawer configurations and sizes.

SELECT
DOORS AND DRAWERS (3 Series)

These doors and drawers feature outside mounting, double wall and square edge construction, a slim tubular stainless steel handle and heavy-duty magnetic latch. A continuous rain guard protects from water getting into your custom enclosure. Available in a large variety of door and drawer configurations and styles.

LEGACY
DOORS AND DRAWERS (2 Series)

Outside mounted with angled edges, the Legacy Doors and Drawers feature a slam latch for secure closure. Available in 12 door and 4 drawer configurations and sizes. Select styles available with black powder-coated finish. The Legacy doors and drawers are the most economical for builders and homeowners alike.
